CO2R

2 m Red cushion in 4 parts-2 m x 1,80 m

A Berlin cushion is used to slow down traffic in urban areas. Buses, coaches, and bicycles are not obstructed by this device due to its wheelbase. They are used in areas where the speed limit should be reduced to 30 km/h. Installation is easy, quick, and cost-effective. The Berlin cushions comply with CEREMA recommendations. They are made of vulcanized rubber with wide, reflective shark teeth and reflectors. Delivered turnkey with fasteners, connectors, and hole covers. LED lights can be added as an option.

Customs code 4016999790
EAN 3321369968587

Color : Red

Material : Vulcanized rubber

Specifications :

- Berlin cushion designed to slow down traffic in urban areas.
- Buses, coaches, and bicycles are not hindered by this device.
