CP1200

Heavy duty Rubber cable protector 1 channel : Ø120mm

cable bridge designed to safeguard cables and hoses during the passage of heavy vehicles. Made of rubber with 2 white reflective arrows for increased visibility, it has 2 channels measuring 120mm. It can withstand vehicles weighing up to 50 tonnes but is not recommended for light vehicles and forklifts equipped with polyamide or rubber wheels. It's easily portable, interlocks easily with its handle and H-shaped connectors, and can be secured with 4 attachment points. Additional adhesive can be used if necessary. Available in various sizes and channel numbers.

Customs code
