Heavy duty Rubber cable protector 2 channels 5 cm

Cable bridge designed to safeguard cables and pipes during the passage of heavy vehicles. Made of rubber and equipped with 2 white reflective arrows for increased visibility. It features 2 channels of 50mm each. Capable of withstanding vehicle weights of up to 50 tons, but not recommended for use with forklifts equipped with polyamide or rubber wheels. Easy to transport and stack thanks to its handle and H links. Can be securely fastened with 4 attachment points. Additional adhesive can be used if necessary. Available in various sizes and with different numbers of channels.

Customs code
