

Technical sheet

CPE1006

cable bridge end cap designed to safeguard cables and hoses during temporary use. Made of rubber, it has 6 channels measuring 25x34mm. It can withstand vehicles weighing up to 30 tonnes but is not recommended for use with forklifts equipped with polyamide or rubber wheels. It easily interlocks with its reversed dovetail tails and can be secured with 2 attachment points. Additional adhesive can be used if necessary.
