Specifications :

- The rubber wheelchair ramp is designed to be used in conjunction with our lid cable protector's range.
- Install the wheelchair ramp on the fixing hole of cable protectors to create a disabled friendly cable protector.
- The smooth gradient allows wheelchairs to be able to overcome the cable protectors.
- To be used within events and festivals.
- Easy to set up and disassemble. Textured ramp surface provides traction and resists slips.
- Can be used as a portable or fixed solution, pre-drilled fixing points if you wish to secure the cable protectors to the ground.
