CPK1100

Cable bridge 2 channels 110mm

Cable bridge designed to safeguard cables and pipes during temporary use. Folds for convenient storage. Made of rubber with a yellow thermoplastic cover for increased visibility. Features 2 channels of 110mm each. Resistant to vehicles weighing up to 40 tonnes but not recommended for forklifts with polyamide or rubber wheels. Easy to transport and stack due to its handles and reverse dovetail ends. Can be supplemented with LED lights. Available in various sizes.

Customs code	40169997
EAN	3321360050328
