Speed table -black 4M X 4M - half white arrows 2 sides

A speed bump is used to slow down traffic on the public road. It complies with CEREMA recommendations and has a standard length of 4 meters and a height of 10 cm. The speed bump offers the advantage of quick and cost-effective installation. It is made of vulcanized rubber with reflective shark teeth and reflectors. Delivered turnkey with fasteners, H-links, and caps. LED lights can be added as an option for increased visibility.
