Barrier with automatic dispenser-orange/white-L15m H300mm

Semi-automatic safety barrier in fabric with a roller allows you to protect or block access easily, temporarily or permanently. It consists of 30 cm strips, a 3 mm PVC-coated steel cable, stainless steel eyelets, a wall hook, and a carrying bag. Various accessories are available for customization (Velcro straps, boxes, posts, etc.). The roller can be attached to a wall, box, or post using its two oblong holes.
