FAST5050FIX

Ruber speed bumper with fixations all type of ground-5000mm/H50mm-40T

This is a modular speed bump designed to slow down traffic on private property roads. It comes ready to use with caps and attachments. The elements are assembled using dovetail joints. It has a height of 50mm, which reduces traffic speed to 30 km/h, and a length of 5 meters. It also has reflectors for better visibility and a 27mm cable pass. It can withstand vehicles weighing up to 40 tons. It's made of rubber, but it's important to avoid prolonged contact with hydrocarbons (oils and such).

Customs code

3926909090

EAN

3321360025395

Color : Black/Yellow

Material : Rubber

Specifications :

- Reduces speed to 25-30 km/h for vehicles up to 40 tons.
- 4 reflectors per element.
- 1 cable gland Ø 27 mm.
- Simple connection with inverted dovetails.
- UV resistant.
- Fixings included.
