KOFPRO451

Polypropylene chest 28L- water proof IPX5

An industrial chest is used to safely transport and store products. It's made from high-density polyethylene and complies with European standards, making it stackable on pallets. It's certified as IPX 5, with two integrated side handles. It comes with 125 mm polyamide wheels and a large pulling handle. It's waterproof and dustproof, with stacking feet to prevent movement during transport. It can be used in temperatures ranging from -40°C to +80°C and is resistant to fats, bases, and acids. Treated against UV damage, it is suitable for food contact.

Customs code	3923109000
EAN	3321360021458

Color : Grey

Material : Polyethylene

Specifications :

- Industrial chest designed for secure transportation and storage of products.
- Sized for European pallets and stackable.
- Certified IPX 5.
- Features 2 integrated side handles.
- Resistant to water and dust.
- Stackable feet to prevent movement during transport.
- Resistant to grease, bases, and acids.
- UV-treated and suitable for food contact.
