Technical sheet

PAN400

Solar panel for RADAR

Photovoltaic solar panel designed to provide solar power to the RADAR400SOL speed awareness radar, ensuring an autonomous energy supply.

Color : Black

Material : Glass

Specifications :

- Rated power: 30 W.
- Open-circuit voltage: 18 V.
- Voltage at maximum power: 15 V.
- Current at maximum power: 2 A.
- Short-circuit current: 2.2 A.
- Power tolerance: ±3%.
- Dimensions: 510 × 360 × 25 mm.
- Wind resistance: 2,400 Pa.
- Material: glass.

Length (mm)	Width (mm)
510	360
