

POT4000GAL

Galvanized steel post with plate 76 mm H 4000 mm

Galvanized steel posts mounted on a base plate can be used to secure all types of signs, including LED traffic signs and speed display signs. The 76 mm tube diameter and 3 mm wall thickness are suitable for mounting large signs. The range comprises three different post heights – 2, 3 or 4 metres – with an extension system that allows the post height to be easily increased for maximum visibility of your signage.

Customs code 73269098
EAN 3321360118431
