

RADAR400SOL

Solar-powered speed awareness radar 30W Bluetooth

Autonomous solar-powered speed display sign (30W) designed to effectively raise driver awareness. Equipped with a 12V 24Ah battery and Bluetooth connectivity. Enables real-time monitoring, easy configuration and data download via the VISO Android mobile app. Robust and easy pole installation. Provides optimal visibility. Optional post (POT2000GAL, POT3000GAL ou POT4000GAL).

Customs code 9029203190
EAN 3321360120403

Color : Grey / Red / White

Material : Polycarbonate

Secondary material : Thermoplastic (ASA)

Operating temperature °C-20 °C / +80 °C

Specifications :

- High-visibility LED display visible from up to 800 m.
- Display frame size : 320 x 320 mm.
- Measurement range: 9–99 km/h.
- Detection range: 0–200 m.
- 30 W solar power supply with 12 V 24 Ah battery.
- Protection rating: IP65.
- Standalone operation without an electrical connection.
- Built-in Bluetooth connectivity.
- VISO Android app for configuration and monitoring.
- Data download.
- Mounting on a pole to be assembled (optional) with connection via screw-in fitting.
