

STOPROJA

Yellow high visibility parking hoop with 3 single opening keys

This high-visibility parking barrier is designed for reserving parking spaces. It comes with 2 anti-friction rings to make opening and closing easier and prevent scratches. The barrier is equipped with wide reflective strips for visibility in the dark and has both automatic and manual locking mechanisms. It's very durable and is delivered with 9 fasteners for installation. The barrier is provided with a single lock and a set of 3 keys. For orders of 5 or more barriers, the SERPASS (universal lock) and MASTERKEY (universal key) are available.
