

TAF91200GR

Antifatigue mat -STANDARD 200 x 91 cm Thickness 9.5 mm-Grey

For alternating use and targeted comfort, this anti-fatigue mat is ideal for standing for up to 3 hours a day. Its 9.5 mm thick resilient foam provides effective cushioning for standing work. It is recommended for regular, non-continuous standing tasks in a dry environment, for small and/or medium-sized users (not recommended for use with oils, in damp environments, low resistance to chemicals).

It is ready to use: the floor must be clean and dry, free from dust and grease. Simply roll out the mat, remove the protective film and press down to secure it in place.
