Flexible post - to fix on the ground - cylind head - green-H800 /Ø100

Flexible shape memory green post, 100 mm diameter, cylindrical head, prevents damage to vehicles. In case of impact, the bollard deforms to return to its initial shape without breaking the sealing or fixing. Resistant to tearing, pulling, and breaking. Used for separating and protecting different areas in the city and parking lots. Height 800mm. To be fixed directly in the ground. Fixings not included. Multiple options available: chain ring, reflective tape, fixing, specific color.

Customs code	3926909790
EAN	3321360010353

Color : Green (RAL6005)

Material : Polyurethane

Specifications :

- Flexible memory-shaped bollard designed to prevent vehicle damage.
- In case of impact, the bollard deforms to its initial shape without breaking the anchoring or fixation.
