

TPX1008CRB

Shape memory protective post - 80/1000mm - cylindrical head - to be fixed - red/white

Flexible memory-shape safety post with an 80mm diameter and a cylindrical head, designed to prevent damage to vehicles and equipment. In case of impact, the bollard deforms and then returns to its original shape without breaking the anchoring or mounting. It is resistant to tearing, pulling, and breaking. Typically used for separating and protecting different areas in warehouses. The height is 1000mm, and it is directly anchored into the ground. Several options available, including chain rings and mounting hardware.

Customs code

3926909790

EAN

3321360055200

Color : Red/White

Material : Polyurethane

Specifications :

- Flexible memory foam protection post prevents damage to vehicles and equipment.
- In case of impact, the bollard deforms and returns to its initial shape without breaking the anchoring or attachment.
