

## TPX1240NJ

### Shape memory protective post with hook – Ø60 x 1240mm – to be fixed – black/yellow

Flexible shape memory bollard, diameter 60 mm, prevents damage to vehicles and equipment. In the event of an impact, the post deforms and returns to its original shape without breaking the seal or fixing. Resistant to tearing, pulling and breaking. Used to separate and protect different areas in warehouses. Height 1240 mm. To be fixed directly into the ground.

Customs code

3926909700

EAN

3321360117762

**Color :** Red/White

**Material :** Polyurethane
