

TPX140NJ

Flexible bollard Ø140mm x 1000mm - with plate - yellow/ black

Flexible memory-shape safety post with a 140mm diameter, designed to prevent damage to vehicles and equipment. In case of impact, the bollard deforms and then returns to its original shape without breaking the anchoring or mounting. It is resistant to tearing, pulling, and breaking. Typically used for separating and protecting different areas in warehouses. The height is 1000mm, and it is directly anchored into the ground.

Customs code 3926909790
EAN 3321360022608

Color : Black/Yellow

Material : Polyurethane

Specifications :

- Flexible protective post: does not break or bend.
- To be fixed directly to the ground with a steel plate: 8 TPUFIX1SB fixings (optional).
- Indoor/outdoor use.
- Corrosion resistant.
- Withstands temperatures between -20°C and +50°C.
