

TPX710RB

Shape memory protection post - Ø100 x 700mm - with plate - red/white

Flexible memory-shape safety post with a 100mm diameter, designed to prevent damage to vehicles and equipment. In case of impact, the bollard deforms and then returns to its original shape without breaking the anchoring or mounting. It is resistant to tearing, pulling, and breaking. Typically used for separating and protecting different areas in warehouses. The height is 700mm, and it is directly anchored into the ground.

Customs code

3926909790

EAN

3321360035905

Color : Red/White

Material : Polyurethane

Specifications :

- Flexible protective post: does not break or bend.
- To be fixed directly to the ground with a steel plate: 4 TPUFIX1SB fixings (optional).
- Indoor/outdoor use.
- Corrosion resistant.
