## TPZ1000CV

### Green flexible bollard with plate H 1000mm d.80mm + cylindrical head

Flexible shape memory green post, 80 mm diameter, cylindrical head, prevents damage to vehicles. In case of impact, the bollard deforms to return to its initial shape and without breaking the sealing or fixing. Resistant to tearing, pulling, and breaking. Used for separating and protecting different areas in the city and parking lots. Height 1000mm. To be fixed directly in the ground. Fixings not included. Multiple options available: chain ring, reflective tape, fixing, specific color.

Customs code 3926909790  
EAN 3321360013149

**Color :** Green (RAL6005)

**Material :** Polyurethane

#### Specifications :

- Flexible memory-shaped bollard designed to prevent vehicle damage.
- In case of impact, the bollard deforms to its initial shape without breaking the anchoring or fixation.
