

Technical sheet

Grey flexible bollard H 1130/930mm-d.80mm-to embed -cylindrical head

- Flexible memory-shaped bollard designed to prevent vehicle damage.
- In case of impact, the bollard deforms to its initial shape without breaking the anchoring or fixation.
- Resistant to tearing, pulling, and breaking.
- Various options available: head type, PMR standard, to be fixed or anchored, removable box, with or without reflective tape...
