Brown flexible bollard H 1130/930mm-d.80mm-to embed -ball head

Flexible shape memory brown post, 80 mm diameter, ball head, prevents damage to vehicles. In case of impact, the bollard deforms to return to its initial shape without breaking the sealing or fixing. Resistant to tearing, pulling, and breaking. Used for separating and protecting different areas in the city and parking lots. Height 930mm above ground. To be embedded directly in the ground or in a sealing box to make it removable (optional box). Multiple options available: chain ring, reflective tape, fixing, specific color.

Customs code	3926909790
EAN	3321360028686

Color : Brown (RAL8017)

Material : Polyurethane
