Green flexible bollard H 1130/930mm-d.80mm-to embed -ball head

Flexible shape memory green post, 80 mm diameter, ball head, prevents damage to vehicles. In case of impact, the bollard deforms to return to its initial shape and without breaking the sealing or fixing. Resistant to tearing, pulling, and breaking. Used for separating and protecting different areas in the city and parking lots. Height 1000mm. To be fixed directly in the ground. Fixings not included. Multiple options available: chain ring, reflective tape, fixing, specific color.

Customs code	3926909790
EAN	3321360026705

Color : Green (RAL6005)

Material : Polyurethane
