Brown flexible bollard H 1560-d.80mm-to embed-white cylind.head

Flexible shape memory PMR (Persons with Reduced Mobility) brown post, 80 mm diameter, white cylindrical head, prevents damage to vehicles. In case of impact, the bollard deforms to return to its initial shape without breaking the sealing or fixing. Resistant to tearing, pulling, and breaking. Used for separating and protecting different areas in the city and parking lots. PMR standard, height 1310mm above ground. To be embedded directly in the ground or in a sealing box to make it removable (optional box). Multiple options available: chain ring, reflective tape, fixing, specific color.

Customs code

3926909790

EAN

3321360028693

Color : Black (RAL9005) White Head

Material : Polyurethane

Specifications :

- Flexible memory-shaped bollard designed to prevent vehicle damage.
- In case of impact, the bollard deforms to its initial shape without breaking the anchoring or fixation.
- Resistant to tearing, pulling, and breaking.
