PVC barrier - 1 panel - PROJECT logo - Red

Extension for an intervention barrier, ideal for dividing an area or creating a passage. Lightweight, easy to set up and transport. Made with a PVC frame and polyester panel. The barrier is highly customizable and can be extended with additional sections, bases, and a carrying bag. It can adapt to various situations with different models and customization options (fabric type, color, printing, finish). The fabric is attached using Velcro and comes with all the necessary connectors.
