INOX Barrier - 1 panel - PROJECT logo - Red

Extension for an intervention barrier used to partition off an area or create a passage. Lightweight, easy to set up and transport. Made with a stainless steel (Inox 304) structure and polyester panel. The barrier is highly customizable and can be complemented with extensions, bases, and a transport bag. It can adapt to all circumstances with various models and customization options (fabric type, color, printing, finish). The fabric is attached using Velcro, and it comes with all the necessary connectors.
