Double-Decker Bike Rack – 8 Spaces

This double-decker bike rack is designed to optimize space and can accommodate up to 8 bicycles on 2 levels. It is easy to use and requires no effort, thanks to gas struts that make lifting the bicycle simple. The system is suitable for all types of bicycles. It offers 4 parking spaces per level and features a wheel-guiding rail system for easy positioning and secure storage of bikes, as well as handles with plastic reinforcements. The double-decker rack must be fixed to the ground (mounting hardware not included); the type of fixing required depends on the surface.

Customs code 7326909000
EAN 3321360116239

Color : Grey

Material : Galvanized steel

Specifications :

- Double-decker bike rack designed to optimize space.
- Accommodates 8 bicycles on 2 levels.
